LE MARTRES

LIMOUSIN STUD

Dear Fellow Beef Producers

Welcome to the sixth Le Martres Limousins Bull Sale.

We are delighted to offer you, yet again, another industry focused set of yearling bulls.

Again, our Sale Bull team just seems to get better and better for a whole range of reasons. We urge you to read on and find out why.

Our Limousin cattle are bred to perform in Australian conditions for your benefit. For those of you whom know our cattle, we produce and grow out cattle under grass feed conditions. We believe our cattle will therefore move and readily perform well in a wide range of environments. And, this is why our cattle are highly fertile.

Established in 1988, Le Martres Limousin proudly breeds Limousin cattle with exceptional quality carcasses, a range of coat colors (apricot, black, red & blue) and an increasing selection of which are polled.

The stud has a within herd genetic selection program based on 17 years of utilising the services of the 'Natural Ecosystems Group' (NEG) of Albury, NSW. This service utilises objective measurement - weighing, live scanning and indexing technology to identify cattle of superior 'meat yield and quality'.

The many benefits are,

- higher carcass yields
- better balanced carcasses, ie. ideal meat/fat/bone ratios
- greater carcass uniformity across progeny.
- higher value heifer progeny
- higher meat content (> 60% dressing percentage)
- higher 'Carcass Merit Index' post weaning for high meat performance (NEG; CMI >2000 @ 12 months, or NEG; CMI/mth > 166.67)
- adequate fat cover (>4 mm & < 10 mm) for softness and ease of finishing
- higher marbling (> 2.0 IMF) for meat quality.

Young herd sires are selected from within the herd on the basis of,

- born early & relatively small (ensuring shorter gestation & small birth size)
- high 'Carcass Merit Index' post weaning
- bred from superior milk performance dams
- structurally correct
- carrying large testicles well suspended away from the body.

We continue to place a great emphasis on cow families and, sons bred from these families.

As we move amongst our clients, we find they are achieving great success by retaining the F1 & F2 heifers from their commercial herds and, breeding on with these cattle. Also, our Le Martres genetics are proving ideal for both grassland &/or feed-lot finishing, especially for domestic trade orders.

We remain dedicated to objectively improving the meat yield & quality of our cattle for your benefit.

"Become a successful member of the Le Martres TEAM. Join us in 2015."

Yours in Limousin,
The Martin Family.

SALE INFORMATION

The 'Selling System'

The Helmsman Sale will be conducted in the 'Woolshed' which is located in close proximity to the stockyards. Mr Michael Glasser of 'GTSM' will conduct the sale. There will be no sale ring, or selling of the bulls through a sale ring.

Buyers Orders and Phone Link Up

Mobile phones operate successfully at the Woolshed (venue). We encourage potential buyers who are unable to attend the sale to make arrangements with the vendor or the listed Sale Agents during the sale to place bids. Please make arrangements at least 48 hours prior to the Sale Day.

Video Link Up

There will be no video link up this year. Previously, this service proved too problem-matic with many viewers experiencing viewing problems due to poor internet service in their locality. We may choose to resume such a service in the future.

Inspection

Bulls can be inspected prior to the sale by arrangement with the vendor or Selling Agents. This gives us the opportunity to assist in selection of the most suitable genetics for your requirements.

Guarantee

Bulls - We guarantee to ensure all clients achieve one crop of calves from each bull purchased. The bulls have been selected for structural soundness. The bulls have been raised on a grass fed system which has proven successful over time to ensure our bulls are fertile. In the event of infertility, we (the vendor) guarantee (without expenses, interest, costs and damages) if any bull proves to be totally infertile or totally incapable of natural service, provided it is not caused by an injury or disease contracted since leaving the sale, to replace the bull with a bull of comparable value. Any claim for a bull must be lodged within 6 months of the date of the Sale direct with the vendor, and be accompanied with a relevant Veterinary Certificate. A claim will be considered on its merits by us (the vendor) and our Veterinarian.

Health

TB and Brucellosis free herd and stock are free to move anywhere in Australia. JD status is Protected. The bulls have been vaccinated previously with Vaxall 5 in 1 and Pestigard.

Tattoos

Certain bulls have an industry tattoo denoting the purity of '1', '2' or '3'. In explanation, the Le Martres Limousins Breeding Program selected young Herd Sires to introduce the traits of black coat color and polledness into the herd. Many of these sale bulls are of higher purity than these tattoos denote, and we ask you to take more notice of the percentage purity listed in the catalogue.

Objective Measurement

The yearling bulls have been weighed, carcass scanned and indexed in December 2014.

This practice is meaningful in that it provides the buyer with information of the body type of the calves these bulls are likely to produce when their calves are of a similar age. Over time, this approach has proven to be reliable and, very well received by our clients. This information is provided in the catalogue for your reference.

The bulls will be weighed again just prior to the Sale and, have a scrotal measurement taken, and this information will be provided in a supplementary sheet.

Semen Collection

Each bull is being sold with 100% possession, marketing and ownership. Le Martres Limousins is reserving the right, if desired in the future, to collect semen from any bull for our own in herd use only. All costs associated with the collection of semen will be met by Le Martres Limousins, and collection would be done at a time suitable to the purchaser. The purchaser would have total control of the bull, including any marketing of the physical bull or semen.

Notice to all Buyers

Pre On Line Registration

1. All Buyers can prior to arriving go online at www.gtsm.net.au and register for this sale.

Sale Rebates

1. All Buyers who settle their purchases on the day by cheque/credit card will receive a 2% rebate.

Notice to all Agents

Pre On Line Registration

1. Agents can go online at www.gtsm.net.au and register their Buyers before escorting them to the sale.

Sale Rebates

1. All Agents attending the Sale and whom fully complete & sign the Registration Form and settle on their clients behalf will receive a 5% rebate on any of their clients purchases.
2. All Agents settling on their clients behalf only will receive a 1% rebate on any of their clients purchases.

Personal Transport To And From Sale Venue

We can arrange transport to and from the sale venue. Please contact the Agents of the Martin Family to make arrangements at least 48 hours prior to the Sale Day.

Air Facilities

Good airport facilities are available at Albury and Wagga Wagga. And private planes may also use Holbrook.

Accommodation

We recommend you contact the Motels direct:

Thurgoona Country Club Resort

1 Evesham Place,
THURGOONA
Ph: (02) 60431666

Chifley Albury

Cnr Dean & Elizabeth Streets,
ALBURY
Ph: (02) 60215366
reservations.albury@chifleyhotels.com

Catering

Refreshments for morning tea and a light lunch will be available on Sale Day.

Insurance

We encourage you to insure your purchases. All care will be taken to the conclusion of the sale but thereafter it is the purchaser's responsibility for any injury or death. We recommend you insure all purchases on the day with GTSM, agent for CGU Insurance, and insure for at least the first joining period.

Livestock Delivery

Joe Wilton is the vendor's nominated carrier, and he will be in attendance - Joe will help co-ordinate all transport arrangements for your new purchasers with Agents GTSM.

Important Notices

1. The vendor will not be responsible for any errors or omissions in this catalogue.
2. The Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their own risk and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

LE MARTRES

LIMOUSIN STUD

“Get With The Strength = Le Martres Limousins Bulls = Cash Flow Solution”.

Le Martres bulls maximize the opportunity to achieve the best market prices on offer.

2014 has been proven to be another great year for ‘Le Martres Limousins’ and our clients.

Le Martres Limousins is widely known for adopting objective measurement to improve the carcass yield and quality. This process is reaping financial rewards for their clients and, the greater Beef Industry.

A ‘weigh & Scan’ operation conducted on the 11.12.14 on this 2013 drop of yearling sires, provided the following averaged results and, a comparison with the previous 2012 drop showed the following exciting trends –

<u>Trait:</u>	<u>2013 Bulls Av. Result:</u>	<u>Comparison With 2012 Bulls:</u>
* Age	13.9 months	+1.5%
* Live Weight	515 kg	+0.4%
* Rib Fat	4.6 mm	+4.3%
* Rump Fat	5.1 mm	+5.9%
* Marbling/IMF	2.3 %	-4.1%
* EMA (Eye Muscle Area)	97.22 cm ²	-4.0%
* NEG; Carcass Merit Index	2592.2 (Super Elite)	-5.3%

We are very pleased with the 2014 results, given the short & dry Spring ‘14 weather we experienced. We believe the 2013 cattle have performed very well, matching the previous year’s average live weight and increasing fat covers.

Again, we believe these results demonstrate the Le Martres Limousins within herd genetic selection program is producing cattle with ideally balanced carcasses and, cattle able to perform in Australian grassland conditions.

CALENDAR OF FUTURE EVENTS

2015 -

28th January	Southern Beef Week Open Day	On Property

25th September	Melbourne Show - Carcass Competition	Melbourne Showgrounds
26th September	Melbourne Show - Limousin Feature	Melbourne Showgrounds

LE MARTRES

LIMOUSIN STUD

2014 Royal Melbourne Show Beef Cattle Carcase Competition

UPDATE: After enjoying our involvement with local schools and entering steers into the 2013 Melbourne Show Beef Carcase Competition, we arranged for another consignment of steers to go to the local schools for the 2014 Melbourne Show.

We placed 2 steers with,

**Mr Ron Webb & his students from Rutherglen High School VIC,
Mr Wayne Whale & his students at St Pauls College at Walla Walla NSW and
Mrs Michelle Godde & her students at Billabong High School at Culcairn NSW**

In addition, Mrs Margaret Pierce of 'Belangalo Park', Gerogery NSW, a long time user of Le Martres Limousin genetics, had 2 steers with,

Mrs Michelle Godde & her students at Billabong High School at Culcairn NSW.

On October 7th 2014, Mr Ron Leary and Mr David Grant representing Le Martres Limousins and, Mrs Margaret Pierce of 'Belangalo Park', Gerogery NSW attended the Melbourne Show to watch the steers being judged 'On The Hoof'.

All 3 schools and their students had done a marvellous job in feeding and coaching the steers in preparedness for the big Show. And, all students competed well and gave our steers every opportunity.

Little did we know this day turned would turn out to be amazing for us all!

Mrs Pierce's steer, exhibited by Billabong High School, won

- 1. In the Led Class Awards -
'Champion Heavy Domestic Steer' and 'Champion Steer'.**
- 2. In the School & College Awards -
'Champion Schools Led Steer'.**

Congratulations Margaret Pierce and Billabong High School.

The following day, the steers were trucked away to a local abattoir and killed and during the following weeks the carcase results released.

Le Martres Limousins has embraced entering the Melbourne Show Ring with steers and the help of local schools. This formula has proven to be a win win situation.

cont. over page

LE MARTRES

LIMOUSIN STUD

2014 Royal Melbourne Show Beef Cattle Carcase Competition cont...

Firstly, by donating steers to local schools operating an Agriculture Department, the students are seizing the opportunity to learn to prepare and show cattle and, then enter the Show Ring and compete against the best handlers in the Beef Industry. The experience the students are gaining is absolutely invaluable. They pick up skills they will carry through-out their lives, skills they can call on at anytime and skills that no one can ever take away from them.

Congratulations to the following schools and their head Agriculture teachers for their brilliant work in 2014.

- Billabong High School of Culcairn NSW and Mrs Michelle Godde.
- Rutherglen High School of Rutherglen VIC and Mr Ron Webb.
- St Pauls College of Walla Walla NSW and Mr Wayne Whale.

Secondly, this process allows Le Martres Limousins to research and assess how our genetics will perform. We sent two steers to each school. In each case, each school received one purebred Limousin steer and one three quarter Limousin one quarter Angus steer.

The following is a summary of how our steers performed.

Class 4 – D Export

50 head of steers entered, including our 6 head of Le Martres Limousins steers.

Comparison A -

50 head of steers versus 6 head of Le Martres Limsousins steers -

Tag No.:	Dressing %:	Rib Fat: (mm)	Rump Fat: (mm)	EMA: (sq.cm)	IMF: (%)	Retail Value: (\$)
----------	-------------	---------------	----------------	--------------	----------	--------------------

Average of 50 head of steers:

58.0 9.8 12.9 95.6 1.1 -

Average of 6 head of Le Martres Limousins steers:

60.7 7.3 9.2 110.2 0.3 1288.06+GST

Differences:

+2.7 -2.5 -3.7 +14.6 -0.8 -
 (+4.7%) (-25.5%) (-28.7%) (+15.3%) (-72.7%)

Comparison B -

Le Martres Limsousins Purebred steers versus 3/4 Limousin & 1/4 Angus steers -

Tag No.:	Dressing %:	Rib Fat: (mm)	Rump Fat: (mm)	EMA: (sq.cm)	IMF: (%)	Retail Value: (\$)
----------	-------------	---------------	----------------	--------------	----------	--------------------

Average of 3 head of Purebred Limousin steers:

60.7 7.3 9.7 110.7 0.3 1301.46+GST

Average of 3 head of 3/4 Limousin & 1/4 Angus steers:

60.7 7.3 8.7 109.7 0.3 1274.65+GST

Differences:

0.0 0.0 -1.0 -1.0 0.0 -26.81+GST
 (0.0%) (0.0%) (-10.3%) (-1.0%) (0.0%) (-2.1%)

This comparison proves Le Martres Limousins carry adequate & even fat cover over the carcass and excel in eye muscle area or muscularity, hence the high dressing percentage and retail \$ value. The 6 head of Le Martres Limousin steers were at slaughter, on average, 621 days or approx. 20 months of age.

In conclusion, the Purebred Limousin steers produced superior carcasses and returned higher payments. As every dollar counts, this comparison confirms our recent advice to clients. Adopt Limousin genetics bred and engineered to meet Meat Industry specifications and you can afford to upgrade your beef herd to Purebred Limousin females using Le Martres Limousins genetics. More and more of our clients are breeding with Limousin infused females and collecting the dividends.

EXPLANATORY NOTES FOR CATALOGUE

LWT:

Live weight is measured by weighing the live animal. Results are measured in kilograms.

RIB & RUMP FAT:

Fat Depths are measured by carcass scanning of the live animal. Exterior fat depths are measured on both the 12/13th Rib and P8; Rump sites, and measured in millimetres.

Measures of >3mm and <10mm will be ideal results for Domestic Trade cattle.

EMA:

Eye Muscle Areas are measured by carcass scanning of the live animal. Such areas are measured on the 12/13th Rib site, and measured in square centimetres. Eye Muscle Areas(EMAs) greater than 100 cm sq. for either sex and all ages of cattle, excluding cattle under 6 months, will be a very good result.

IMF:

Intramuscular Fat is measured by carcass scanning of the live animal. IMF is measured on the 12/13th Rib site, and measures the percentage of fat distributed through-out the eye muscle.

Intramuscular Fat(IMF) measures of >2% will be ideal result for Domestic Trade cattle.

NEG; CMI:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI) is based upon the Live Weight(LW), Eye Muscle Area(EMA), Fat Depths(FD) and Intramuscular Fat(IMF) of the animals weighed & scanned.

Animals with heavy LW, large EMA, least FD and high IMF are rated highest by the 'NEG; CMI'.

The results are presented in groupings by age, and ranked from highest to lowest.

N.B It will be recommended animals under the age of 24 months be divided into groups with up to a three month spread of age for the purpose of peer group comparisons.

NEG; CMI/AGE:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI)/month is a powerful tool for assessing the performance of a live animal, ie. carcass merit relative to age. And, likewise, when comparing a live animal against its peers.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

Horn Status:	(HP*)	Homozygous Polled by DNA test
	(HP)	Homozygous Polled by progeny test
	(2P)	Homozygous Polled by pedigree
	(P)	Polled
	(S)	Scurred
Colour:	(HB)	Homozygous Black by DNA test
	(2B)	Homozygous Black by pedigree
	(B)	Black
	(R)	Red (not Apricot)
Protoporphyrin Status:	(PN)	Proto Normal
	(PF)	Proto free by pedigree
	(PC)	The animal is a carrier of the abnormal gene for Proto.
	(PS)	Proto suspect (parent of carrier animal)
	(PU)	The animal has not been tested for Proto or have parents which have been tested normal or are free by pedigree.

EXPLANATORY NOTES FOR CATALOGUE

F94L – The Limousin Muscle Gene

What are the effects of the Limousin Muscling Gene?

The research conducted by the Adelaide University group led by Dr Wayne Pitchford has clearly documented the effects of the Muscle Gene as shown below.

	Two Copies of the Gene:	Zero Copies of the Gene:	% Difference:
Hot Carcase Weight	390.8 kg	380.2 kg	+3%
Weight of Silverside	11.58 kg	9.76 kg	+19%
Eye Muscle Area	102.0 sq cm	86.1 sq cm	+19%
Retail Beef Yield	73.4%	68.1%	+8%
Shear force of Loin Muscle*	4.06	4.30	-6%
Shear force of Silverside*	3.94	4.43	-11%

Note: (*) lower shear force indicates more tender beef

How big is the effect if I use a Limousin bull over cows of another breed?

Most Limousin bulls carry two copies of the Limousin Muscle Gene so each of the progeny will get at least one copy of the Gene from the bull.

Animals with one copy are likely to exhibit about half the differences shown above.

A Limousin cross calf is expected to have –

- * 9.5% more Silverside,
- * 9.5% larger Eye Muscle Area
- * 4% more Retail Beef Yield
- * 3% increase in Tenderness of the Loin Muscle
- * 5.5% increase in Tenderness of the Silverside.

F94L Verification

DNA Test. Animals with a DNA Test verification have had a direct analysis of their DNA to confirm they carry 2 copies of the F94L gene.

All bulls in this Sale have had their F94L status verified by DNA Test.

What is a Limousin bull worth?

A Limousin bull siring 30 calves per year over 5 years.

Realistically these calves – steers & heifers – can make a \$50 premium per head in the market.

Therefore it can be reasoned the bull is worth 30 x 5 x \$50 - \$7,500 MORE to the Buyer!

LE MARTRES

LIMOUSIN STUD

Taking Delivery Of Your New Cattle - Bulls

To help your new cattle settle into their new property, the following points may be of assistance.

- * All Le Martres Limousin cattle have been grazed in large herds all of their lives, so they have always had plenty of companion animals, and never been alone.
- * It is a good idea to have mature cattle of your own in the stockyards for company for when your new cattle arrive. These cattle will provide company for the new cattle, and encourage them to settle in quicker, and get to know the lay-out of your stockyards/races/paddocks.
- * At Le Martres Limousin we handle our cattle quietly and confidently, we always show our cattle respect, and our cattle respect us. We generally use motorbikes and dogs to yard the cattle. And, work the cattle on foot and with dogs in the stockyards. The cattle are not familiar with horses.
- * We advise you to handle your new cattle quietly and with respect and they will settle into their new property and herd and will be easy to handle whenever the need arises.

At Delivery

- * At Le Martres Limousin we will work with you to ensure your newly purchased cattle are delivered safely, professionally and on time. We highly recommend Mr Joe Wilton as the nominated carrier.

During The Settling In Period

- * The majority of cattle have been grazed in a large herd.
- * Once unloaded, ensure the cattle have mature company and plenty of food and water.
- * Be aware it is a new environment for the cattle and, sometimes time in the yards with mature company and plenty of food and water may be required.
- * Do not box up bulls unfamiliar with each other – the majority of breakdowns/injuries are caused in the bull paddock when new bulls are directly added to an existing group of bulls.
- * Remember the pecking order scenario with other bulls – the newest addition into a bull paddock may receive a hard time for a while. Perhaps graze bulls in adjoining paddocks for some time before grazing together in the same paddock.

At Joining Time

- * For young bulls arrange a minimal number of cows/heifers to allow the bull(s) to learn to serve and work amongst the herd. Practice makes perfect!!!
- * Observe the bull(s) closely and regularly at the commencement of a joining period. This ensures you are aware of the bulls ability to serve, and you will get to know their behaviour and manners. Continuing to observe the bull(s) will increase the chances of you noticing if an accident has occurred and/or females in the herd are returning from service. In which case, the bull(s) can be removed and a back up bull(s) placed in the herd.
- * If using more than one bull in a herd it is advisable to combine a mature with a young bull in a team.
- * Do not mate bulls with horns and polled/dehorned bulls together. Single mating is preferred.

After Joining Time

- * Try and combine younger bulls in the bull paddock, and graze older bulls in a separate herd in order to avoid injury to the older bulls.
- * Offer all bulls plenty of food and water in order to recover body weight and regain optimal health.

Le Martres Limousin Semen and Embryos For Sale

LE MARTRES
LIMOUSIN STUD

THURSDAY, MAY 7TH, 2015 GENOMIX BEEF GENETIC SALE

www.genomix.com.au

Le Martres Limousins has been accepted as a vendor into the inaugural International Expose of Australian Beef Genetics, along with Maryvale & Raven Limousin Studs.

The Sale will involve 17 different breeds of Beef Cattle.

As vendors we offer 4 lots, involving embryo, semen and flush packages from our top performing cow & bull families.

On May 7th, from 5-7 pm, at Beef 2015 in Rockhampton QLD the sale will be conducted to both Australian and International audiences.

At this early stage, interest in the Sale has already come from Overseas countries in South America, North America, Canada and the United Kingdom.

This will be an exciting opportunity to showcase the best of the Australian Beef Industry to the world.

Watch out for this opportunity.
