LE MARTRES

BEEF

Dear Fellow Beef Producers

Welcome to our 1st Majestic Maidens Sale. Our first formal production sale of heifers in 29 years.

We are delighted to offer to you these very high class maiden heifers which all come with the renowned Le Martres milk & maternal values. We believe this is the essence of great matrons.

Established in 1988, Le Martres Limousin proudly breeds Limousin cattle with exceptional quality carcasses, a range of coat colors (apricot, black, red & blue) and an increasing selection of which are polled.

For those who do not know our cattle, we produce cattle grown under grass fed conditions, no grain. We believe our cattle will therefore move and readily perform well in a wide range of environments. And, this is why our cattle are highly fertile.

Le Martres cattle are bred to perform under Australian grass based conditions for your benefit.

The stud has a within herd genetic selection program based on 19 years of utilising the services of the 'Natural Ecosystems Group' (NEG). This service utilises objective measurement - weighing, live scanning and indexing technology to identify cattle of superior 'meat yield and quality'.

The many benefits are,

- higher carcass yields
- better balanced carcasses, ie. ideal meat/fat/bone ratios
- greater carcass uniformity across progeny.
- higher value heifer progeny
- higher meat content (> 60% dressing percentage)
- higher 'Carcass Merit Index' post weaning for high meat performance (NEG; CMI >2000 @ 12 months, or NEG; CMI/mth > 166.67)
- adequate fat cover(>4 mm & < 10 mm) for softness and ease of finishing
- higher marbling (> 2.0 IMF) for meat quality.

Herd dams are selected from within the herd on the basis of,

- calving annually.
- calves born early & relatively small (ensuring shorter gestation & small birth size).
- high Maternal Index at weaning (representing good milk production).
- good carcass attributes.
- structurally correct
- carrying good udder and teat shape.

We place great emphasis on cow families and, sons & daughters bred from these families.

By hosting this heifer sale we are offering A GREAT OPPORTUNITY for you to purchase heifers from the 'heart of the Le Martres herd'. These heifers are ready to prepare for showing if desired, and you can now set these young matrons up under your own management. In our opinion, are brilliant opportunity for you to experience the best the Limousin breed can offer, the female!!

"Become a successful member of the Le Martres TEAM. Join us in 2017"

Yours in Limousin,

The Le Martres Beef Team.

SALE INFORMATION

The 'Selling System'

The Online Sale will be conducted by 'Elite' Auctions.

Due to our previous experience with Video Link systems and, many viewers experiencing viewing problems due to poor internet service in their locality, we recommend you check in and register at least 48 hours ahead of Sale Day and establish if you have good internet service. If not, then it is recommended you contact your local Livestock Agent and arrange for them to lodge bids for you during the Sale.

Inspection

Heifers can be inspected prior to the sale by arrangement with the vendor or the Selling Agent.

This gives us the opportunity to assist in selection of the most suitable genetics for your requirements.

Guarantee

Heifers - We guarantee heifers sold are 'Not In Calf'.

The heifers have been selected for structural soundness. The heifers have been raised on a grass based system which has proven successful over time to ensure our females are fertile. The heifers will be weaned by the Sale.

Advice

We recommend you seriously consider purchasing 2 or more heifers and ensure these heifers are not trucked about as individuals. As you know they are young, companion cattle and will travel better and arrive happier if they have at least one travel companion.

Health

TB and Brucellosis free herd and stock are free to move anywhere in Australia. JD status is Protected. The heifers have been vaccinated previously with Vaxall 5 in 1.

Tattoos

All heifers have an industry tattoo denoting the purity of '1', '2' or 'P'. Many of these sale heifers are of higher purity than these tattoos denote, and we ask you to take more notice of the percentage purity listed in the catalogue.

Objective Measurement

'NEG: Maternal Index':

The dams will be weighed at the 2017 weaning, as will their calf, and a Maternal Index (MI) generated. The MI represents milk performance in the Le Martres herd. Cows with high MI are retained over time. Heifers from Le Martres cows are therefore good candidates to be acquired.

'NEG; Carcase Merit Index':

The heifers have been weighed, carcase scanned and indexed in June 2017.

This practice is meaningful by providing the buyer with information of the body type of the calves these heifers are likely to produce when their calves are of a similar age. Over time, this approach has proven to be reliable and, very well received by our clients. This information is provided in the catalogue for your reference.

Notice to all Buyers

Pre On Line Registration

1. All Buyers can prior to the Sale go online at www.gtsm.net.au and register for this sale.

Invoicing

1. GTSM will invoice successful Purchasers immediately following the Sale.

Sale Rebates

1. All Agents whom fully complete & sign the Registration Form and settle on their clients behalf within the terms offered in the invoice will receive a 5% rebate on any of their clients purchases.
2. All Agents settling only on their clients behalf will receive a 1% rebate on any of their clients purchases.

Delivery

1. Cattle will only be released after financial settlement has been completed with GTSM.

Notice to all Agents

Pre On Line Registration

1. Agents can go online at www.gtsm.net.au and register their Buyers before the sale.

Personal Transport To And From The Property

Inspections by appointment - transport from Albury to and from the property can be arranged. Please contact the Agents of the Martin Family to make any such arrangements.

Air Facilities

Good airport facilities are available at Albury and Wagga Wagga. And private planes may also use Holbrook.

Accommodation

We recommend you contact the Motels direct:

Thurgoona Country Club Resort

1 Evesham Place,
THURGOONA
Ph: (02) 60431666

Insurance

We recommend you insure your purchases. All care will be taken to the conclusion of the sale but thereafter it is the purchaser's responsibility for any injury or death. We recommend you insure all purchases on the day with GTSM, agent for CGU Insurance, and insure for at least the first 12 month period.

Livestock Delivery

Joe Wilton is the vendor's nominated carrier. Joe will help co-ordinate all transport arrangements for your new purchasers with Agents GTSM.

Joe Wilton - 0408 739 559

Important Notices

1. The vendor will not be responsible for any errors or omissions in this catalogue.
2. The Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy.

EXPLANATORY NOTES FOR CATALOGUE

LWT:

Live weight is measured by weighing the live animal. Results are measured in kilograms.

RIB & RUMP FAT:

Fat Depths are measured by carcass scanning of the live animal. Fat depths are measured on both the 12/13th Rib and P8;Rump sites, and measured in millimetres.

Measures of >3mm and <10mm will be ideal results for Domestic Trade cattle.

EMA:

Eye Muscle Areas are measured by carcass scanning of the live animal. Such areas are measured on the 12/13th Rib site, and measured in square centimetres.

Eye Muscle Areas(EMAs) greater than 100 cm sq. for either sex and all ages of cattle, excluding cattle under 12 months, will be a very good result.

IMF:

Intramuscular Fat is measured by carcass scanning of the live animal. IMF is measured on the 12/13th Rib site, and measures the percentage of fat distributed throughout the eye muscle.

Intramuscular Fat(IMF) measures of >2% will be ideal result for Domestic Trade cattle.

NEG; CMI:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI) is based upon the Live Weight(LW), Eye Muscle Area(EMA), Fat Depths(FD) and Intramuscular Fat(IMF) of the animals weighed & scanned.

Animals with heavy LW, large EMA, least FD and high IMF are rated highest by the 'NEG; CMI'.

The results are presented in groupings by age, and ranked from highest to lowest.

N.B It will be recommended animals under the age of 24 months be divided into groups with up to a three month spread of age for the purpose of peer group comparisons.

NEG; CMI/AGE:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI)/month is a powerful tool for assessing the performance of a live animal, ie. carcass merit relative to age. And, likewise when comparing a live animal against its peers.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

Horn Status:	(HP*)	Homozygous Polled by DNA test
	(HP)	Homozygous Polled by progeny test
	(2P)	Homozygous Polled by pedigree
	(P)	Polled
	(S)	Scurred
Colour:	(HB)	Homozygous Black by DNA test
	(2B)	Homozygous Black by pedigree
	(B)	Black
	(R)	Red (not Apricot)
Protoporphyrin Status:	(PN)	Proto Normal
	(PF)	Proto free by pedigree
	(PC)	The animal is a carrier of the abnormal gene for Proto.
	(PS)	Proto suspect (parent of carrier animal)
	(PU)	The animal has not been tested for Proto or have parents which have been tested normal or are free by pedigree.

LE MARTRES

LIMOUSIN STUD

Taking Delivery Of Your New Cattle - Heifers

To help your new cattle settle into their new property, the following points may be of assistance.

- * All Le Martres cattle have been grazed in large herds all of their lives, so they have always had plenty of companion animals, and never been alone.
- * It is a good idea to have cattle of your own in the stockyards as company for when your new cattle arrive. These cattle will provide company for the new cattle, and encourage them to settle in quicker, and get to know the lay-out of your stockyards/races/paddocks.
- * At Le Martres we handle our cattle quietly and confidently, we always show our cattle respect, and our cattle respect us. We generally use motorbikes and dogs to yard the cattle. And, work the cattle on foot and with dogs in the stockyards. The cattle are not familiar with horses.
- * Handle your new cattle quietly and with respect and they will settle into their new property and herd and will be easy to handle whenever the need arises.

At Delivery

- * At Le Martres Limousin we will work with you to ensure your newly purchased cattle are delivered safely, professionally and timely. We highly recommend Mr Joe Wilton as the nominated carrier.

During The Settling In Period

- * The majority of cattle have been grazed in a large herd.
- * Once unloaded, ensure the cattle have company and plenty of food and water.
- * Be aware it is a new environment for the cattle and, sometimes time in the yards with company and plenty of food and water may be required.
- * The heifer(s) are used to being treated with respect and will respond accordingly to good management.
- * Be aware cattle have a pecking order and, new individuals entering an existing herd will be tested by the existing cows/heifers, usually in the form of fighting.
