NEWS UPDATE

Le Martres Genetics Works For You -

The Le Martres Team have recently been celebrating the success of their breeding program. In a recent live animal scanning program the highly acclaimed stud sire Limoges El Bulli, a black & polled son of Le Martres Antonio, returned a perfect set of scan results.

Limoges El Bulli	Liveweight	1350 kg
	Rib Fat	14 mm
	Rump Fat	20 mm
	Eye Muscle Area (traced)	142 sq. cm
	Intramuscular Fat (IMF)	5.8%

Note: These carcass results being achieved on a grass based diet, with no grain.

Quote: "For a purebred Limousin bull to be this soft on a grass based diet demonstrates how far we have come with breeding European Cattle to suit the grass based, Australian Beef Cattle Industry". Leon Martin

Limoges El Bulli (E16) is now a 7 year old sire, with daughters coming into the Le Martres Stud Herd and with many sons already out in local commercial herds. Many folk have met our giant, black bull at the Le Martres Beef stand at the 2015 Henty Machinery Field Days. El Bulli will again be available to meet you at the Le Martres Annual Bull Sale, on property, held at 'Rosemont Farm', Table Top NSW on Feb 24.

LE MARTRES

BEEF

Dear Fellow Beef Producers

Welcome to the eighth Le Martres Beef Annual Bull Sale.

We are delighted to again offer you another industry focused set of bulls.

This year, in addition to our traditional draft of yearling bulls, we will be offering a significant number of mature bulls.

Again, our Sale Bulls just seems to get better and better for a whole range of reasons.

For those of you who do not know our cattle, we produce and grow out cattle under grass feed conditions. We believe our cattle will therefore move and readily perform well in a wide range of environments. And this is why our cattle are highly fertile.

Established in 1988, Le Martres Beef proudly breeds Limousin cattle with exceptional quality carcasses, a range of coat colors (apricot, black, red & blue) and an increasing selection of which are polled.

The stud has a within-herd genetic selection program based on 19 years of utilising the services of the 'Natural Ecosystems Group' (NEG) of Albury, NSW. This service utilises objective measurement - weighing, live scanning and indexing technology to identify cattle of superior 'meat yield and quality'.

The many benefits are:

- higher carcass yields
- better balanced carcasses, ie. ideal meat/fat/bone ratios
- greater carcass uniformity across progeny
- higher value heifer progeny
- higher meat content (> 60% dressing percentage)
- higher 'Carcass Merit Index' post weaning for high meat performance (NEG; CMI >2000 @ 12 months, or NEG; CMI/mth > 166.67)
- adequate fat cover (>4 mm & < 10 mm) for softness and ease of finishing
- higher marbling (> 2.0 IMF) for meat quality.

Young herd sires are selected from within the herd on the basis of:

- born early & relatively small (ensuring shorter gestation & small birth size)
- high 'Carcass Merit Index' post weaning
- bred from superior milk performance dams
- structurally correct
- carrying large testicles well suspended away from the body.

We continue to place a great emphasis on cow families and sons bred from these families.

As we continue to move amongst our clients, we find they achieve great success by retaining the F1 & F2 heifers from their commercial herds and breeding on with these cattle. Also, our Le Martres genetics are proving ideal for both grassland &/or feed-lot finishing, especially for domestic trade orders.

We remain dedicated to objectively improving the meat yield & quality of our cattle for your benefit.

"Become a successful member of Le Martres Beef. Join us in 2017"

Yours in Limousin,

The Le Martres Beef Team.

SALE INFORMATION

The 'Selling System'

On Property - The Helmsman Sale will be conducted in the 'Woolshed' which is located in close proximity to the stockyards. Mr Michael Glasser of 'GTSM' will conduct the sale. There will be no sale ring, or selling of the bulls through a sale ring.

Online

The Online Sale will be conducted by 'Elite Livestock Auctions' in the lead up to and in conjunction with the On Property Sale. The Online Sale will conclude simultaneously with the On Property Sale.

Video Link Up

Due to our previous experience with Video Link systems and many viewers experiencing viewing problems due to poor internet service in their locality, we recommend you check in and register at least 48 hours ahead of Sale Day and establish if you have good internet service. If not, then it is recommended you contact your local Livestock Agent and arrange for them to lodge bids for you during the Sale.

Inspection

Bulls can be inspected prior to the sale by arrangement with the vendor or Selling Agents. This gives us the opportunity to assist in selection of the most suitable genetics for your requirements.

Guarantee

Bulls - We guarantee to ensure all clients achieve one crop of calves from each bull purchased. The bulls have been selected for structural soundness. The bulls have been raised on a grass fed system which has proven successful over time to ensure our bulls/females are fertile. In the event of infertility, we (the vendor) guarantee (without expenses, interest, costs and damages) if any bull proves to be totally infertile or totally incapable of natural service, provided it is not caused by an injury or disease contracted since leaving the sale, to replace the bull with a bull of comparable value. Any claim for a bull must be lodged within 6 months of the date of the Sale direct with the vendor, and be accompanied with a relevant Veterinary Certificate. A claim will be considered on its merits by us (the vendor) and our Veterinarian.

Health

TB and Brucellosis free herd and stock are free to move anywhere in Australia. JD status is Protected. The bulls have been vaccinated previously with Vaxall 5 in 1 and Pestigard.

Tattoos

Certain bulls have an industry tattoo denoting the purity of '1', '2' or '3'. In explanation, the Le Martres Beef Breeding Program selected young Herd Sires to introduce the traits of black coat color and polledness into the herd. Many of these sale bulls are of higher purity than these tattoos denote, and we ask you to take more notice of the percentage purity listed in the catalogue.

Objective Measurement

The yearling bulls have been weighed, carcass scanned and indexed as yearlings in December 2016. This practice is meaningful by providing the buyer with information of the body type of the calves these bulls are likely to produce when their calves are of a similar age. Over time, this approach has proven to be reliable and very well received by our clients. This information is provided in the catalogue for your reference. The bulls will be weighed again just prior to the Sale and have a scrotal measurement taken, and this information will be provided in a supplementary sheet.

Semen Collection

Each bull is being sold with 100% possession, marketing and ownership. Le Martres Beef is reserving the right, if desired in the future, to collect semen from any bull. All costs associated

with the collection of semen will be met by Le Martres Beef, and collection would be done at a time suitable to the purchaser. The purchaser would have total control of the bull, including any marketing of the physical bull or semen.

Notice to all Buyers

Pre On Line Registration

1. All Buyers must pre register with both GTSM & Elite Livestock Auctions.

Invoicing

1. GTSM will invoice successful Purchasers at the completion of the Sale.

Sale Rebates

1. All Buyers who settle their purchases on the day by cheque/ credit card will receive a 2% rebate.

Delivery

1. Cattle will only be released after financial settlement has been completed with GTSM.

Notice to all Agents

Pre On Line Registration

1. Agents can go online at www.gtsm.net.au and introduce their Buyers before the sale.

Sale Rebates

1. All Agents who fully complete & sign the Registration Form and settle on their clients' behalf within the terms offered in the invoice will receive a 5% rebate on any of their clients' purchases.
2. All Agents settling on their clients behalf only will receive a 1% rebate on any of their clients purchases.

Personal Transport To And From Sale Venue

Inspections by appointment - transport from Albury to and from the property can be arranged. Please contact the Agents of the Martin Family to make any such arrangements.

Air Facilities

Good airport facilities are available at Albury and Wagga Wagga. Private planes may also use Holbrook.

Accommodation

We recommend you contact the Motel direct:

Thurgoona Country Club Resort

1 Evesham Place,
THURGOONA
Ph: (02) 60431666

Insurance

We recommend you insure your purchases. All care will be taken to the conclusion of the sale but thereafter it is the purchaser's responsibility for any injury or death. We recommend you insure all purchases on the day with GTSM, agent for CGU Insurance, and insure for at least the first 12 month period.

Livestock Delivery

Joe Wilton is the vendor's nominated carrier. Joe will help co-ordinate all transport arrangements for your new purchases with Agents GTSM. Joe Wilton - 0408 739 559.

Important Notices

1. The vendor will not be responsible for any errors or omissions in this catalogue.
2. The Selling Agent, its members, subsidiary or related corporations, officers, agents and employees for themselves and for those for whom they act while exercising due care provide all information without responsibility and give no guarantee whatsoever as to its accuracy. All persons who attend the sale do so entirely at their own risk and the Selling Agent, its members, subsidiary or related corporations, officers, agents and employees and its principals, for themselves and for those for whom they act, do not assume or accept any responsibility or liability of whatever nature for any injury or damage whatsoever which may occur.

LE MARTRES BEEF

“Get With The Strength = Le Martres Beef Bulls = The Cash Flow Solution”.

“Le Martres bulls maximize the opportunity to achieve the best market prices available.” - Leon Martin

2016 has been proven to be another great year for ‘Le Martres Beef’ and our clients.

Helen & Luke Heffer, Tarcutta NSW

In Spring 2016, Helen & Luke have sold 150 head of vealers bred from Le Martres genetics and averaged \$1500+GST per head.

David & Jill Weidner, Balldale NSW

Earlier in 2016, David & Jill sold calves bred by Le Martres genetics, up to 10 months of age, the top calves making over \$1500+GST at the Wangaratta Meats. In January 2017, in another consignment of similar aged calves, the top priced calf realized \$1689+GST.

Le Martres Beef is widely known for adopting objective measurement to improve the carcass yield and quality. This process is reaping financial rewards for their clients and the greater Beef Industry.

A ‘Weigh & Scan’ operation conducted on the 20.12.16 on the 2015 drop of yearling sires, which appear in the 2017 Bull Sale, provided the following averaged results, and a comparison with the previous 2014 drop showed the following exciting trends –

Trait:	2015 Bulls Av. Result:	Comparison With 2014 Bulls:
* Age	14.2 months	+2.1%
* Live Weight	545 kg	+6.6%
* Rib Fat	5.5 mm	+10.0%
* Rump Fat	5.7 mm	-1.7%
* Marbling/IMF	3.6 %	+33.3%
* EMA (Eye Muscle Area)	91.82 cm ²	-8.1%
* NEG; Carcase Merit Index	2488.1 (Super Elite)	-1.4%

We are very pleased with these results. The 2015 cattle have significantly increased the average liveweight, rib fat & marbling %. In addition, rump fat has marginally decreased, leading to a more even fat cover over the carcass – a trait we have been selecting for the last 19 years.

Again, we believe these results demonstrate the Le Martres Beef within-herd genetic selection program is producing cattle with ideally balanced carcasses and cattle able to perform in Australian grassland conditions.

CALENDAR OF FUTURE EVENTS

2017 -

29th Nov-1st Dec	Le Martres Beef 3rd Golden Opportunity Female Sale	Online

LE MARTRES BEEF

2016 Royal Melbourne Show Beef Cattle Carcase Competition

UPDATE: After enjoying success with local schools and entering steers into the 2014 & 2015 Melbourne Show Beef Carcase Competitions, we arranged for another consignment of steers to go with local schools to the 2016 Melbourne Show.

This year we selected both purebred & crossbred steers from the Le Martres Beef herd.

In the Autumn 2016, we placed 2 steers with:

Mr Ron Webb & his students from Rutherglen High School VIC
Mr Wayne Whale & his students at St Pauls College at Walla Walla NSW
Mrs Michelle Godde & her students at Billabong High School at Culcairn NSW
Mr Luke Collins & his students at Yanco Agricultural High School at Yanco NSW

On September 21st 2016, Mr Ron Leary and Mr David Grant representing Le Martres Beef and, Mrs Margaret Pierce of 'Belanglo Park', Gerogery NSW attended the Melbourne Show to watch the steers being judged 'On The Hoof'.

All schools and their students had done a marvelous job in feeding and coaching the steers in preparedness for the big Show. All students competed well and gave our steers every opportunity.

In 2015, Le Martres Beef achieved success with Limoges Kanga, Exhibit No.280, exhibited by St Pauls College, winning

1. **In the Led Class Awards - 'Champion Heavy Domestic Steer' and 'Reserve Champion Steer'.**
2. **In the School & College Awards - 'Reserve Champion Schools Led Steer'.**

In 2016, Le Martres Beef backed up with Le Martres Lindberg, Exhibit No.292, exhibited by Yanco Agricultural High School, winning

1. **In the Led Class Awards - 'Medium Domestic Steer - Reserve Champion'.**

cont. over page

LE MARTRES BEEF

2016 Royal Melbourne Show Beef Cattle Carcase Competition cont...

In addition, other placings include –

1. In the Led Class Awards - 'Medium Domestic Steer'.

Le Martres Black Liam, Exhibit No.227, exhibited by Rutherglen High School, placed 4th.

Le Martres Black Licorice, Exhibit No.152, exhibited by Billabong High School, placed 5th.

Hayley Luxford of Rutherglen High School exhibiting Le Martres Black Liam, Exhibit No.227, receiving 4th placing.

'Heavy Domestic Steer'.

Le Martres Black Leroy, Exhibit No.153, exhibited by Billabong High School, placed 2nd.

Le Martres Lionel, Exhibit No.249, exhibited by St Pauls College, placed 3rd.

Le Martres Laidley, Exhibit No.291, exhibited by Yanco Agricultural High School, placed 4th.

Congratulations to Mr Luke Collins & his students and Yanco Agricultural High School.

Congratulations to Mr Ron Webb & his students and Rutherglen High School.

Congratulations to Mrs Michelle Godde & her students and Billabong High School.

Congratulations to Mr Wayne Whale & his students and St Pauls College.

In addition, other awards include –

1. In the Handlers Awards -

Steer 152 – Led by Corey Hogan of Billabong High School – placed 3rd.

Steer 227 – Led by Crystal Hocking of Rutherglen High School – placed 3rd.

Steer 153 – Led by Charles Lieschke of Billabong High School – placed 5th.

Steer 153 – Led by Tamara Stewart of Billabong High School – placed 7th.

Congratulations to these winning students and all those students who participated.

Le Martres Beef continues to embrace entering the Melbourne Show Ring with steers with the help of local schools. This formula has proven to be a win win situation.

Firstly, by donating steers to local schools operating an Agriculture Department, the students are seizing the opportunity to learn to feed, prepare and show cattle and then to enter the Show Ring and compete against the best handlers in the Beef Industry.

Secondly, using purebred steers, our cattle are eligible to be selected on behalf of the Limousin Breed for the Borthwick Trophy. Exhibit No.292, Le Martres Lindberg, was selected into the Limousin team. To our delight, our steer was the highest scoring Limousin steer in the team.

In conclusion, based upon these Show results and, in our experience, adopting Limousin genetics bred and engineered to meet Meat Industry specifications you can now afford to upgrade your entire commercial beef herd to Purebred Limousin females based on Le Martres Beef genetics. More & more of our clients are breeding with their Limousin infused females and collecting the financial rewards.

EXPLANATORY NOTES FOR CATALOGUE

LWT:

Live weight is measured by weighing the live animal. Results are measured in kilograms.

RIB & RUMP FAT:

Fat Depths are measured by carcass scanning of the live animal. Exterior fat depths are measured on both the 12/13th Rib and P8; Rump sites, and measured in millimetres.

Measures of >3mm and <10mm will be ideal results for Domestic Trade cattle.

EMA:

Eye Muscle Areas are measured by carcass scanning of the live animal. Such areas are measured on the 12/13th Rib site, and measured in square centimetres. Eye Muscle Areas(EMAs) greater than 100 cm sq. for either sex and all ages of cattle, excluding cattle under 6 months, will be a very good result.

IMF:

Intramuscular Fat is measured by carcass scanning of the live animal. IMF is measured on the 12/13th Rib site, and measures the percentage of fat distributed through-out the eye muscle.

Intramuscular Fat(IMF) measures of >2% will be ideal result for Domestic Trade cattle.

NEG; CMI:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI) is based upon the Live Weight(LW), Eye Muscle Area(EMA), Fat Depths(FD) and Intramuscular Fat(IMF) of the animals weighed & scanned.

Animals with heavy LW, large EMA, least FD and high IMF are rated highest by the 'NEG; CMI'.

The results are presented in groupings by age, and ranked from highest to lowest.

N.B It will be recommended animals under the age of 24 months be divided into groups with up to a three month spread of age for the purpose of peer group comparisons.

NEG; CMI/AGE:

The 'Natural Ecosystem Group (NEG); Carcass Merit Index' (CMI)/month is a powerful tool for assessing the performance of a live animal, ie. carcass merit relative to age. And, likewise, when comparing a live animal against its peers.

EXPLANATION OF THE SUFFIXES TO ANIMAL NAMES IN THIS CATALOGUE

Horn Status:	(HP*)	Homozygous Polled by DNA test
	(HP)	Homozygous Polled by progeny test
	(2P)	Homozygous Polled by pedigree
	(P)	Polled
	(S)	Scurred
Colour:	(HB)	Homozygous Black by DNA test
	(2B)	Homozygous Black by pedigree
	(B)	Black
	(R)	Red (not Apricot)
Protoporphyrin Status:	(PN)	Proto Normal
	(PF)	Proto free by pedigree
	(PC)	The animal is a carrier of the abnormal gene for Proto.
	(PS)	Proto suspect (parent of carrier animal)
	(PU)	The animal has not been tested for Proto or have parents which have been tested normal or are free by pedigree.

EXPLANATORY NOTES FOR CATALOGUE

F94L – The Limousin Muscle Gene

What are the effects of the Limousin Muscling Gene?

The research conducted by the Adelaide University group led by Dr Wayne Pitchford has clearly documented the effects of the Muscle Gene as shown below.

	Two Copies of the Gene:	Zero Copies of the Gene:	% Difference:
Hot Carcase Weight	390.8 kg	380.2 kg	+3%
Weight of Silverside	11.58 kg	9.76 kg	+19%
Eye Muscle Area	102.0 sq cm	86.1 sq cm	+19%
Retail Beef Yield	73.4%	68.1%	+8%
Shear force of Loin Muscle*	4.06	4.30	-6%
Shear force of Silverside*	3.94	4.43	-11%

Note: (*) lower shear force indicates more tender beef

How big is the effect if I use a Limousin bull over cows of another breed?

Most Limousin bulls carry two copies of the Limousin Muscle Gene so each of the progeny will get at least one copy of the Gene from the bull.

Animals with one copy are likely to exhibit about half the differences shown above.

A Limousin cross calf is expected to have –

- * 9.5% more Silverside,
- * 9.5% larger Eye Muscle Area
- * 4% more Retail Beef Yield
- * 3% increase in Tenderness of the Loin Muscle
- * 5.5% increase in Tenderness of the Silverside.

F94L Verification

All bulls in this Sale have had their F94L status verified by DNA Test.

What is a Limousin bull worth?

A Limousin bull siring 30 calves per year over 5 years.

Realistically these calves – steers & heifers – can make a \$50 premium per head in the market. Therefore it can be reasoned the bull is worth 30 x 5 x \$50 - \$7,500 MORE to the Buyer!

1

LE MARTRES KIRK

Tattoo: LEMPK111 **Born:** 11/2/2015 **% FB:** 92.6

Apricot & Dehorned.

Birth Weight 35-40 kg.

On 8.1.16 at 10.9 months –

Liveweight 402 kg,

Rib Fat 5.0 mm, Rump Fat 6.0 mm,

Intramuscular Fat (IMF) 2.3%,

Eye Muscle Area (EMA) 97.31 sq.cm,

NEG Carcase Merit Index (CMI) 2193.6 - Super Elite rating!!

NEG CMI/Age 201.6

F94L DNA Test – Available on Sale Day.

Protoporphyrin Test – Available on Sale Day.

Breeding - Purebred Limousin.

Comments -

Kirk is a tremendous carcase sire, who walks very well, and, a very high performing sire, coming 1st in the CMI/AGE assessment.

His dam Le Martres Albury is from very reliable Le Martres Black Unanimous Cow Family.

His sire Le Martres Governor is an A+ muscle score sire from the splendid Le Martres Celest Cow Family.

Suit Stud & commercial prospects.

LE MARTRES BEEF

Taking Delivery Of Your New Cattle - Bulls

To help your new cattle settle into their new property, the following points may be of assistance.

- * All Le Martres Beef cattle have been grazed in large herds all of their lives, so they have always had plenty of companion animals, and never been alone.
- * It is a good idea to have mature cattle of your own in the stockyards for company for when your new cattle arrive. These cattle will provide company for the new cattle, and encourage them to settle in quicker, and get to know the lay-out of your stockyards/races/paddocks.
- * At Le Martres Beef we handle our cattle quietly and confidently. We always show our cattle respect, and our cattle respect us. We generally use motorbikes and dogs to yard the cattle, and work the cattle on foot and with dogs in the stockyards. The cattle are not familiar with horses.
- * We advise you to handle your new cattle quietly and with respect and they will settle into their new property and herd and will be easy to handle whenever the need arises.

At Delivery

- * At Le Martres Beef we will work with you to ensure your newly purchased cattle are delivered safely, professionally and on time. We highly recommend Mr Joe Wilton as the nominated carrier.

During The Settling In Period

- * The majority of cattle have been grazed in a large herd.
- * Once unloaded, ensure the cattle have mature company and plenty of food and water.
- * Be aware it is a new environment for the cattle and, sometimes time in the yards with mature company and plenty of food and water may be required.
- * Do not box up bulls unfamiliar with each other – the majority of breakdowns/injuries are caused in the bull paddock when new bulls are directly added to an existing group of bulls.
- * Remember the pecking order scenario with other bulls – the newest addition into a bull paddock may receive a hard time for a while. Perhaps graze bulls in adjoining paddocks for some time before grazing together in the same paddock.
- * The bull(s) are used to being treated with respect and will respond accordingly to good management.

At Joining Time

- * For young bulls arrange a minimal number of cows/heifers to allow the bull(s) to learn to serve and work amongst the herd. Practice makes perfect!!!
- * Observe the bull(s) closely and regularly at the commencement of a joining period. This ensures you are aware of the bulls ability to serve, and you will get to know their behaviour and manners. Continuing to observe the bull(s) will increase the chances of you noticing if an accident has occurred and/or females in the herd are returning from service. In which case, the bull(s) can be removed and a back up bull(s) placed in the herd.
- * If using more than one bull in a herd it is advisable to combine a mature with a young bull in a team.
- * Do not mate bulls with horns and polled/dehorned bulls together. Single mating is preferred.

After Joining Time

- * Try and combine younger bulls in the bull paddock, and graze older bulls in a separate herd in order to avoid injury to the older bulls.
- * Offer all bulls plenty of food and water in order to recover body weight and regain optimal health and nutrition.

Le Martres Beef Semen and Embryos For Sale

SEMEN:

Unlicensed Semen stored at Agrigene's Centre, Wangaratta, Victoria.

Le Martres Mozart	French Pure	\$50.00 per straw	(Packages available)
